

Tank shown with X-Saddle and complete Placarding System.

X-SADDLE

- Aluminum X brace construction - super strong, super light.
- Angled top - no tank rolling or sloshing of product.
- White, non marking rubber bumpers - replaceable.
- Fits 120 gallon through 1000 gallon tanks.
- Set of two.
- 6" wide x 6" high x 16" long - 8 pounds each.
- Conforms to DOT special permit 13341.

PLACARDING SYSTEM

- 4 direction DOT placarding system - meets all DOT rules and regulations.
- Easy to use and installs in less than one minute.
- One two-way right/left strap and two end straps front/rear.
- Heavy duty construction - powder coated aluminum back plates, white, non marking bumpers.
- Adjusts from 120 gallon to 1890 gallon tanks.
- 1075 decals are coated with a scratch resistant coating and are replaceable.

DOT EXEMPTION STRAP

With the new Fisk exemption strap, you can now take advantage of the DOT ruling that allows the transportation of propane tanks no larger than 500 gallons to return to the plant with up to 80% cap.

- Strap set has four positions: 120, 250, 350, 500 gallon and larger.
- Steel 'D' ring provides a steel on steel attachment point.
- Strap sleeve protects the tank legs from strap wear.

To comply with exemption requirements for DOT transport:

- Crane trucks must put tanks on saddles.
- Tank trailers must provide rear impact protection.

* *Companies must apply and receive exemption prior to use.*
