

FEI PROPANE DISPENSER TANK LEG KIT

Simplify your pump and motor dispensing with a stand alone high leg kit. Use the high leg kit for achieving maximum product flow to your pump. Leg kit can be used with or without rails and can easily be adapted for a full-size dispenser cabinet mounted on the end or side. Additional accessories include a motor/pump mount plate, a lockable nozzle holster (lock sold separately). All accessories easily bolt together with predrilled holes, (bolts not included). Components are designed with mild steel and painted black.

Sold exclusively by FEI, Inc.
